Annual Dues	Description/Details	Due Date
\$500.00	2010 NPEA Annual Dues Per System/Organization	March 31, 2010

The primary goal of the National Pension Education Association (NPEA) is to promote and expand retirement education programs and communication initiatives for public employees across the country.

The annual membership fee to join NPEA entitles your organization to send an unlimited number of staff to the NPEA Annual Conference, which will be held this year in Lake Tahoe, Nevada on October 16-20, 2010. The annual conference offers an affordable opportunity to stay informed and up to date on retirement education, communication trends, and important issues facing the public retirement community. The conference is a valuable forum that promotes professional development, networking with national peers, and creative approaches to serve your members.

In addition, your membership allows you to utilize the *NPEA Members Only* portion of our website. The secure member area of the NPEA website provides access to the following information:

- The NPEA member directory and network;
- Presentation materials from the NPEA Annual Conference;
- New industry research briefs;
- Online access to edit your contact information; and
- A free subscription to Public Pensions Online.

If you are not the appropriate person in your organization to process this invoice, please forward this copy as it will be the only copy your organization receives. We appreciate your support of NPEA and look forward to receiving your membership dues.

Please send your check along with this invoice to:
